

SHREYA YADAV

Quality Analyst | Software Testing | SQL | TFS | Agile

s8reya@gmail.com | 7508486221 | GitHub: shr5ya | LinkedIn

SUMMARY

Quality Analyst with hands-on experience in manual and functional testing of enterprise web applications across 7+ modules. Skilled in test case design and execution, functional, regression, smoke, sanity, UI, and retesting activities. Experienced in defect reporting and tracking using TFS, backend data validation using SQL Server, and collaborating with developers in an Agile environment. Strong understanding of SDLC, STLC, defect life cycle, and software quality practices, backed by a Computer Science Engineering background.

EXPERIENCE

Vertex Infosoft Solutions Pvt. Ltd., Mohali

May 2026 – Present

Quality Analyst

- Perform manual and functional testing across **7+ enterprise application modules**, validating business workflows, UI behavior, data accuracy, and functional requirements.
- Design, document, and execute detailed **test cases** based on software requirements and expected business workflows.
- Execute **functional, regression, smoke, sanity, and retesting** cycles for new features, enhancements, and defect fixes.
- Identify, document, and track defects using **TFS**, including reproduction steps, expected vs. actual results, severity, and supporting evidence.
- Retest resolved defects and perform regression testing to ensure fixes do not impact existing functionality.
- Perform **UI testing** of search, filters, menus, columns, controls, and interactive application components.
- Test end-to-end workflows across procurement and related business modules against defined requirements.
- Validate backend data using **SQL queries in Microsoft SQL Server** and verify consistency between application behavior and database records.
- Collaborate with developers, team leads, and stakeholders during defect analysis, resolution, and validation within an **Agile environment**.

TECHNICAL SKILLS

Software Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Retesting, UI Testing, Exploratory Testing, Test Case Design, Test Execution, Defect Reporting, Defect Life Cycle

QA & Methodologies: SDLC, STLC, Agile, Black Box Testing, Requirement Analysis, Functional Validation, Release Validation

Database: SQL, Microsoft SQL Server, MongoDB, Supabase

Tools: TFS, Postman, Git, GitHub, Docker

Programming & Web: Java, Python, C++, C, JavaScript, HTML, CSS, React.js, Node.js, Express.js

EDUCATION

Chitkara University

Bachelor of Engineering – Computer Science Engineering

2022 – 2026

Rajpura, Punjab

Govt. Model Senior Secondary School, Sector 27-C

2021 – 2022

Class XII – CBSE, 71.4%

Chandigarh

Little Flower Convent School

2019 – 2020

Class X – ICSE, 81.2%

Panchkula

PROJECTS

ATOM – Mental Health Platform *React.js, Tailwind CSS, Supabase* • Developed a responsive web platform with AI support, self-assessment tests, community features, and wellness tools.

- Designed and executed basic test cases to validate critical user flows, UI functionality, and application behavior.

Electra – Online Voting System

MERN Stack

- Developed REST APIs for candidate management, vote casting, and real-time result tracking.
- Validated API responses and data handling to ensure accurate vote recording and reliable workflows.

CERTIFICATIONS & ACTIVITIES

- **ISTQB Certified – The Complete Software Testing 2026 Bootcamp**, Udemy
- **Product Ideation, Design, and Management**, University of Maryland • Active participant in **C2S2 Nat Samraat**, Official Acting Club of Chitkara University.
- Organising Team Member for **Rangrezz 2024**, Chitkara University's theatre fest.
